

# Uzbekistan's Healthcare System in International Comparison on the Example of Trust in Doctors

Hurriyat Kurbanbaeva (Freiburg)

Donnerstag, 21.07.2022

18:15–19:45 Uhr

Albert-Ludwigs-Universität Freiburg

UNI  
FREIBURG

Trust is one of the central characteristics of the patient-physician relationship. Many fear that rapid changes in the health care system are jeopardizing patients' trust in their physicians. However, despite the acknowledged importance and potential fragility of trust, relatively few attempts have been made to conceptualize patient trust in Uzbekistan. This talk will discuss the public's trust in physicians.
